Problem :

https://www.codechef.com/JUNE222D/problems/FIT

Code : JAVA

```java
/* package codechef; // don't place package name! */

import java.util.*;

import java.lang.*;

import java.io.*;

/* Name of the class has to be "Main" only if the class is public. */

class Codechef

{

        public static void main (String[] args) throws java.lang.Exception

        {

                // your code goes here
                Scanner sc = new Scanner(System.in);

                int n = sc.nextInt();

                for(int i=0;i<n;i++){

                   int x = sc.nextInt();

                   System.out.println(10*x);

                }

        }

}
```
